Editor
Journal of Computational and Graphical Statistics

Dear Dr McCormick,

Please consider my article entitled "Visualizing probability distributions across bivariate cyclic temporal granularities" co-authored by Rob J Hyndman, Dianne Cook, and Antony Unwin for publication in the Journal of Computational and Graphical Statistics.

We believe that this manuscript is appropriate for publication by the Journal of Computational and Graphical Statistics because it makes unique computational and graphical contributions for analyzing temporal data and also non-temporal data with a nested hierarchical structure.

The manuscript is original, and no part has been published before, nor is any part of it under consideration for publication at another journal. A preprint has been made available at arXiv and submitted to be added to Monash EBS working papers.

Thank you for your consideration!

Best wishes

Sayani Gupta
